Exhibited Items

Internal Combustion Vehicles and Components

Core components including powertrains, chassis, bodies, and interiors.

Engines, transmissions, exhaust systems, axles, steering systems, brakes, wheels, shock absorbers, body parts, HVAC components, interior parts, and various general automotive parts.

IT and Electronic Components

Navigation systems, TPMS, dash cams, HUDs, motors, sensors, connectors, relays, PCBs, harnesses, various lighting systems, semiconductors, displays, and more.

Materials and Chemicals

- **Materials** : Polyurethane, silicone, engineering plastics, polymers, coatings, and other advanced materials.
- **Lightweight Parts** : Aluminum components and cutting-edge composite materials.

Accessories and Tuning

Interior and exterior accessories, automotive consumables, films, wheels, spoilers, mufflers, audio systems, and other tuning products.

Solutions

- **Equipment** : Printers, microscopes, endoscopes, scanners, and software solutions.
- **Facilities** : Welding machines, dispensers, marking machines, robotics, fuel dispensers, car wash equipment, and more.
- **Maintenance Tools** : Vehicle lifts, dryers, exchangers, hand tools, storage solutions, and related maintenance tools.
- **Molds and Forming Equipment** : Automotive mold machinery, forming equipment, processing and cutting tools, and more.

Alternative Parts

- **Exterior Parts** : Bumper covers, hoods, fenders, door skins, inner fenders, side mirrors, moldings, trunks, grilles, rear core panels, front panels, undercovers, and similar components.
- **Lighting Components** : Tail lights, clearance lights, turn signals, DRLs, brake lights, reverse lights, fog lights, and other lighting systems.
- **Functional and Consumable Parts** : Air conditioners, radiators, control arms, stabilizers, shock absorbers, engine electrical components, steering systems, brakes, and glass gears.

Remanufactured Parts

- **Passenger Vehicles** : Alternators, starters, CV joints, air conditioning compressors, clutch covers, turbochargers, injectors, bumpers, doors, headlamps, steering motors, and more.
- **Commercial Vehicles** : Alternators, starters, automatic transmissions, air conditioning compressors, rear axles, cylinder heads, diesel engines, diesel injectors, high-pressure fuel pumps, and similar products.

Car Care and Detailing

- **Car Washing Supplies** : Towels, chemicals, tools.
- **In-Car Items** : Safety equipment, accessories, air fresheners, and consumables.

Emission Reduction Equipment

DPFs, PM-NOx reduction devices, three-way catalytic converters, and related technologies.

Commercial and Specialty Vehicles & Components

Commercial vehicles (buses and trucks), air transport equipment, heavy machinery, trailers, construction and agricultural machinery, rail and marine components, urea solutions, and engine additives.

Root Industry Technology

Core Technologies

Casting, molding, plastic forming, welding, heat treatment, and surface treatment equipment.

Future Mobility and Components

Mobility Solutions

Mobility Solutions Hydrogen vehicles, electric vehicles, autonomous vehicles, e-mobility, ultra-compact electric vehicles, drones, UAVs, and UAMs.

Components

ADAS, LiDAR, autonomous driving sensors, cameras, electric motors, inverters, vehicle controllers, and innovative startup technologies and components.

Batteries

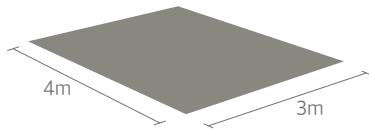

Small, medium, and large lead-acid batteries, nickel-metal hydride batteries, lithium-ion batteries, lithium-polymer batteries, raw materials, cells, modules, and packs.

Infrastructure

Charging infrastructure and related facilities for mobility solutions.

Cost of Participation

Raw Space

USD 3,156.00 / 12m²(per booth)
